

# Plastic pipework systems for **Hotels and Apartments**

Plastic pipework systems are ideal for the multiple requirements of modern-day hotels and apartments.

These buildings are often high-rise and the lightweight nature of plastic pipework systems can be of great benefit in buildings of this type. Our suite of products have been widely used for both hot & cold water, chilled water and drainage applications.

## Boosted Cold Water

**Durapipe SuperFLO** is ideal for transporting large volumes of boosted cold water for tall buildings such as apartments or hotels.

Apartments

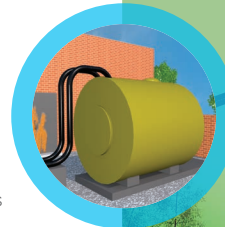

## High Temperature Chemical Drainage

Available in two easy jointing options, **Vulcathene** is fully BBA approved and is the market leading product for the safe drainage of chemical combinations and hot water that may be disposed of from a busy hotel laundry facility.

## Emergency Fuel Supply

**PLX** is a market leading specialist pipework system for the conveyance of fuel. PLX can be used to safely transport fuel from storage tanks to generators for emergency power supply applications. The pipe system ensures a continuous flow of fuel to the back-up generator which is imperative to a building such as a hotel.

## Sound Reducing Drainage

**Friaphon** sound reducing drainage is purpose-designed for acoustic soil and rainwater. In areas such as hotel rooms where any excess noise would be an issue, Friaphon offers excellent sound insulation when compared to cast iron or ordinary lagged plastic drainage systems.

## Swimming Pool

Perfect for swimming pools, **Durapipe UK** products are hygienic and limescale free, perfect for dosing, analysis and circulation water. With a complete system of pipes, fittings and valves, **Durapipe SuperFLO** can provide the complete pipework requirements for a swimming pool development.

## Hot & Cold Water

**Durapipe HTA** operates at a wide temperature range and is ideal for both hot and cold water distribution. The system is lightweight and easy to install via a simple solvent-weld jointing process and is perfect for the hot & cold water services throughout high-rise premises.

## Chilled Water/Air Conditioning

Designed to operate at temperatures as low as  $-40^{\circ}\text{C}$  and highly impact resistant, **Durapipe SuperFLO** is ideal for chilled water/air conditioning applications. SuperFLO has been used in many comfort cooling applications such as in luxury hotel rooms where climate control is imperative.
