

Philmac[®]

The connection you can trust

A quick, easy connection and repair for small diameter polyethylene GAS services

PRICE LIST
3rd January 2012

A quick and easy fitting. Just expose damaged pipe, prevent escape of gas by squeezing off. Remove damaged pipe and insert liner.

Undo nut to expose three threads, enabling free passage of pipe into fitting socket.

Then just tighten nut up to flange.

WARNING!
Only authorised and competent operatives should work on the gas network.
ALL gas escapes must be reported on
0800 111999
